

Nicolas Deleasa

IT Technician

PROFILE

QA technician with experience in enterprise server validation and process optimization, alongside hands-on iOS development using SwiftUI.

CERTIFICATES

CompTIA Network+ — Expires: June 2029

Code: b53df05eb1234b748bf3e31b512ff768

CompTIA A+ — Expires: June 2029

Code: 998R6C9YREQ4QNS1

Google Cybersecurity — Obtained: January 2025

SKILLS

- Windows 10/11, macOS, Debian Linux, DNS, DHCP, VLANs, NAT, VPNs, Wi-Fi, OPNsense, WireGuard, Proxmox, Nginx, SSH, server hardware, troubleshooting.

EXPERIENCE

Test Technician II, ZT Systems (contract) — October 2025 - February 2026

- Performed server-level validation and testing on enterprise hardware equipment.
- Troubleshoot components including hard drives, backplanes, NICs, fans, console switches, and data switches.
- Analyzed system logs to identify root causes of errors.
- Designed and developed an internal documentation website (HTML/CSS/JS) to streamline onboarding and improve troubleshooting efficiency.

PROJECTS

Home Lab / Network Administration Project

- Built segmented OPNsense home network with VLANs, DHCP, DNS, NAT, firewall rules, and WireGuard VPN.
- Deployed Windows virtualization with Proxmox for DMZ services.
- Hosted Docker/Nginx and FastAPI services on Debian for documentation, remote system control, and status monitoring, controlled with custom built iOS app.

EDUCATION

New Jersey State — High School Diploma, June 2016
